AARUSH SHARMA

College Station, TX | 469-558-5428 | aarush_2730@tamu.edu | LinkedIn

SUMMARY

General Engineering student at Texas A&M; University with hands-on experience in CAD, mechanical design, prototyping, and testing through rocketry and student engineering teams. Interested in vehicle systems, mechanical design, and iterative engineering.

EDUCATION

Texas A&M; University — College Station, TX | Expected May 2030
B.S. General Engineering

Frisco High School — Frisco, TX | May 2026
High School Diploma

TECHNICAL SKILLS

CAD: Fusion 360, SolidWorks

Programming: Python, Java, MATLAB

Engineering: Mechanical design, prototyping, troubleshooting, testing, iterative design

Hands-on: Model rocket construction, mechanical assembly

ENGINEERING EXPERIENCE

EcoCAR Team — Apprentice Member | Texas A&M; University | Oct. 2026–Present
• Selected as an apprentice member of a student team focused on vehicle design and high-efficiency vehicle technology.
• Building experience with vehicle systems and collaborative engineering projects.

American Society of Mechanical Engineers (ASME) — Member, Go-Kart Program | Texas A&M; University | Aug. 2026–Present
• Participating in ASME's go-kart design-and-build program, with opportunities to apply mechanical design and fabrication skills.

American Rocketry Challenge & Aerospace Club | Aug. 2023–May 2025
Recovery Systems & Engine Research Teams
• Designed rocket recovery and landing components in Fusion 360 and validated a shock-cord system through 3–4 test launches.
• Achieved three successful test recoveries and a successful recovery at the American Rocketry Challenge (ARC).
• Worked with a four-person team to diagnose recurring design failures and implement iterative fixes to improve recovery reliability.

LEADERSHIP & PROJECT EXPERIENCE

Nexify Initiative — Executive Team / STEM Podcast Manager | Dec. 2024–May 2026
• Produced five podcast episodes featuring interviews with STEM professionals.
• Helped plan guests and episodes and translated technical topics into accessible content for students.

Technology Student Association — Officer | Aug. 2024–May 2026
• Organized STEM activities and competitions, coordinating event logistics and timelines.
• Collaborated with officers and advisors to plan events and support chapter participation in state-level competitions.
